Jontec 300

Concentrated Neutral Floor Cleaner

Description

TASKI Jontec 300 SmartDose is a super concentrated, low foaming neutral floor cleaner for the daily cleaning of all types of water resistant floors (PVC, linoleum, rubber, marble, etc...). Can be used on protected as well as on un-protected floors. Suitable for manual cleaning (mop and bucket) as well as mechanical cleaning (scrubber drier).

Thanks to its smart packaging, the SmartDose concept allows for easy, safe and accurate ing of concentrated cleaning products. SmartDose is the solution of choice when combining performance, end user safety and environment responsibility. SmartDose is used at low dosages, limiting the use and disposal of chemicals into the environment and is packed in recyclable material.

TASKI Jontec 300 SmartDose fullfills the criteria of the European EU-Flower eco-schemes. Diversey's expertise, environmental commitment, and certification against ISO 9001, ISO 14001, OHSAS 18001 and the AISE Charter for Sustainable cleaning provide further guarantee of quality and efficiency.

Benefits

- Safe to use on all floor types
- Efficient cleaning while preserving gloss of floor polishes
- Cost effective as a result of excellent cleaning performances at low dosages
- Can be used in scrubber dryers
- European Ecolabel provides the guarantee of respect of the environment, of reduced impact on aquatic life and reduced use of hazardous substances.
- SmartDose system allows simple, accurate, safe dosage of super concentrated chemicals.

Properties

- pH neutral
- Fast acting and fast drying without streaks
- No dye or fragrance
- Efficient at low dosages
- Low foaming
- Fulfils the EU-Flower criteria 2005/344/EC
- Convenient and controlled dosing through the SmartDose system

Application

Diversey
for a cleaner, healthier future™

Use instructions and dosage

Accurate dosage saves costs and minimises the environmental impact. The SmartDose dosing system can be used for controlled dosing into large bucket or scrubber dryer.

Manual cleaning with mop and bucket

1. Fill bucket with 10L water
2. Turn the yellow head to bucket position; pull head up fully; then push down fully to release product into the bucket whilst completing the filling of the bucket. Use 1 SmartDose shot as per 10L of water in the bucket.
3. Clean the floor with mop and allow to dry.

Mechanical cleaning with Scrubber drier

1. Fill the scrubber drier tank with water
2. Turn the yellow head to scrubber drier position; pull head up fully; then push down to release product into water tank whilst completing the filling of the water tank. Use 1 SmartDose shot as per 20L of water in the machine tank.
3. Clean the floor

Dosage	Number of Fillings
Bucket filled with 10L water 1:500 (0.2%)	70
Scrubber drier filled with 20L water 1:500 (0.2%)	35

Technical Data

Appearance:	Clear, Colourless
pH neat :	7.8 (+/- 0.5)
pH in use (1:500 / 0.2%)	6.5 - 7.5
Relative density (20°C)	1.01

The data here above is typical of normal production and should not be taken as specification.
