# bio fizzy tablets

delphis  
eco

**Our bio fizzy tablets are a powerful treatment to eliminate blockages from drain lines, toilets and septic tank systems.**

They release millions of beneficial bacteria to speed up the biodegradation of organic waste, reducing it to water and carbonate to help eliminate blockages, smells, and reduce pumping. Scan the QR code below for more info.

## benefits

- ✓ digest grease and other wastes
- ✓ keeps drain lines free flowing
- ✓ helps protect drain fields
- ✓ safe for all plumbing
- ✓ enzyme producing bacteria
- ✓ readily biodegradable
- ✓ reduced use of hazardous substances
- ✓ phosphate and phosphonate free
- ✓ not tested on animals

## bacteria count

|                             |                              |
|-----------------------------|------------------------------|
| <b>Total count:</b>         | 9.80 x 10 <sup>7</sup> cfu/g |
| <b>Spore count:</b>         | 1.59 x 10 <sup>7</sup> cfu/g |
| <b>Gram-negative count:</b> | Not detected                 |

The bacteria in our fizzy tablets produce amylase, cellulase, lipase and protease. These are all essential enzymes for the degradation of organic matter. They do not contain any free enzymes.

## application and directions

**Drain line maintenance:** Dissolve one tablet into a bucket or other container with 4-5 litres of tepid water. Pour the product evenly into all drain lines. Repeat monthly.

**Septic tank maintenance:** Dissolve one tablet into toilet bowl, allow time to dissolve and flush. Use one tablet per month for each tank capacity of 4,500 litres.

**NB:** Do not use with anti-bacterial products and cleaners.

## technical data

Figures are typical values and should not be used as specifications

|                               |                                     |
|-------------------------------|-------------------------------------|
| <b>Form:</b>                  | solid                               |
| <b>Colour:</b>                | blue                                |
| <b>Odour Threshold:</b>       | no data available                   |
| <b>pH:</b>                    | <2 at 100 grams per litre           |
| <b>Relative Density:</b>      | 1.04g/3cm (20°C)                    |
| <b>Water Solubility:</b>      | partially miscible                  |
| <b>Thermal Decomposition:</b> | heating can release hazardous gases |

## areas of usage

Anywhere blockages are a problem or could occur, such as:

- pipe lines
- drain lines
- toilets
- septic tank systems

## safe handling and storage

Full guidance on the handling and safe storage of the product can be obtained from the safety data sheet including first aid measures and health and safety requirements.

## supplier information

|                      |                                    |
|----------------------|------------------------------------|
| <b>Product Name:</b> | Bio Fizzy Tablets                  |
| <b>Product Code:</b> | SEP020BIO01R (20 tablets per tube) |
