#### Date of issue/Date of revision : 29 August 2011

# SAFETY DATA SHEET

Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II (453/2010) - Europe

# Magic maxx

Version : 1

# SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### 1.1 Product identifier

| Product name | : Magic maxx                  |
|--------------|-------------------------------|
| Product code | : 112238E                     |
| Product use  | : Heavy duty cleaner          |
|              | Due duet is few woofs as is w |

Product is for professional use only

Identified uses

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

General purpose cleaner. Manual process General purpose cleaner. Spray and wipe manual process Floor cleaner. Semi-Automatic process Floor cleaner. Manual process

#### 1.3 Details of the supplier of the safety data sheet

| Manufacturer/ Distributor/<br>Importer | : | David Murray John Building<br>UK-SN1 1NH Swindon, Wiltshire<br>England<br>Tel +44 (0)1793 511221 |
|--|---|--|
|  |   | Fax +44 (0)1793 618552<br>CCS@ecolab.com   |

#### 1.4 Emergency telephone number

#### National advisory body/Poison Centre

**Telephone number** : 0870 600 6266 (This service is only available to health professionals) <u>Manufacturer/ Distributor/ Importer</u>

Telephone number : 01793 511221

# **SECTION 2: Hazards identification**

#### 2.1 Classification of the substance or mixture

Product definition : Mixture

#### Classification according to Directive 1999/45/EC [DPD]

The product is not classified as dangerous according to Directive 1999/45/EC and its amendments.

| Classification               | : Not classified. |
|------------------------------|-------------------|
| Physical/chemical<br>hazards | : Not applicable. |
| Human health hazards         | : Not applicable. |
| Environmental hazards        | : Not applicable. |

See section 16 for the full text of the R-phrases declared above

See Section 11 for more detailed information on health effects and symptoms.

| 2.2 Label elements             |   |
|--------------------------------|---|
| Risk phrases                   | : This product is not classified according to EU legislation.   |
| Safety phrases                 | : Not applicable.   |
| Supplemental label<br>elements | : Safety data sheet available for professional user on request. |

# **SECTION 2: Hazards identification**

#### 2.3 Other hazards

Other hazards which do : Not applicable. not result in classification

# **SECTION 3: Composition/information on ingredients**

#### 3.2 Mixtures

|   |  |             | Class  | sification  |            |
|---|--|-------------|--|---|------------|
| Product/ingredient<br>name                                    | Identifiers  | %           | 67/548/EEC   | Regulation (EC) No.<br>1272/2008 [CLP]  | Туре       |

|   |  |             | See section 16 for<br>the full text of the R-<br>phrases declared<br>above | See Section 16 for the<br>full text of the H<br>statements declared<br>above. |            |

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Туре

[1] Substance classified with a health or environmental hazard

[2] Substance with a workplace exposure limit

[3] Substance meets the criteria for PBT according to Regulation (EC) No. 1907/2006, Annex XIII

[4] Substance meets the criteria for vPvB according to Regulation (EC) No. 1907/2006, Annex XIII

Occupational exposure limits, if available, are listed in Section 8.

# **SECTION 4: First aid measures**

#### 4.1 Description of first aid measures

| Eye contact                | : Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.  |
|----------------------------|--|
| Inhalation                 | : Remove victim to fresh air and keep at rest in a position comfortable for breathing.<br>Get medical attention if symptoms occur.   |
| Skin contact               | <ul> <li>Flush contaminated skin with plenty of water. Remove contaminated clothing and<br/>shoes. Get medical attention if symptoms occur.</li> </ul>   |
| Ingestion                  | : Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur. |
| Protection of first-aiders | : No action shall be taken involving any personal risk or without suitable training.   |

#### 4.2 Most important symptoms and effects, both acute and delayed

| Potential acute health effect | <u>S</u>  |
|-------------------------------|---|
| Eye contact                   | : May cause eye irritation.                         |
| Inhalation                    | : No known significant effects or critical hazards. |
| Skin contact                  | : No known significant effects or critical hazards. |

| <b>SECTION 4: First aid</b>   | l measures   |
|---|--|
| Ingestion   | : No known significant effects or critical hazards.  |
| Over-exposure signs/symp  | <u>toms</u>  |
| Eye contact   | : No specific data.  |
| Inhalation  | : No specific data.  |
| Skin contact  | : No specific data.  |
| Ingestion   | : No specific data.  |
| 4.3 Indication of any immedi  | ate medical attention and special treatment needed   |
| <b>Notes to physician</b> : Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled. |  |
| Specific treatments   | : No specific treatment.   |
| SECTION 5: Firefigh   | ting measures  |
| 5.1 Extinguishing media   |  |
| Suitable extinguishing media  | : Use dry chemical, CO <sub>2</sub> , water spray (fog) or foam.   |
| Unsuitable extinguishing media  | : Do not use water jet.  |
| 5.2 Special hazards arising f   | rom the substance or mixture   |
| Hazards from the substance or mixture   | : Combustible liquid. In a fire or if heated, a pressure increase will occur and the container may burst, with the risk of a subsequent explosion.   |
| Hazardous combustion products   | : Decomposition products may include the following materials:<br>carbon dioxide<br>carbon monoxide<br>sulfur oxides<br>metal oxide/oxides  |
| 5.3 Advice for firefighters   |  |
| Special precautions for<br>fire-fighters  | : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool. |
| Special protective equipment for fire-fighters  | : Fire-fighters should wear proper protective equipment.   |

# **SECTION 6: Accidental release measures**

#### 6.1 Personal precautions, protective equipment and emergency procedures For non-emergency : No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from personnel entering. Do not touch or walk through spilt material. Shut off all ignition sources. No flares, smoking or flames in hazard area. Put on appropriate personal protective equipment. **For emergency responders** : If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also Section 8 for additional information on hygiene measures. 6.2 Environmental : Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental precautions pollution (sewers, waterways, soil or air).

#### 6.3 Methods and materials for containment and cleaning up

Date of issue/Date of revision : 29 August 2011

### **SECTION 6: Accidental release measures**

| Small spill:                    | : Dilute with water and mop up if water-soluble or absorb with an inert dry material and place in an appropriate waste disposal container. Use spark-proof tools and explosion-proof equipment.  |
|---------------------------------|--|
| Large spill                     | : Prevent entry into sewers, water courses, basements or confined areas. Contain<br>and collect spillage with non-combustible, absorbent material e.g. sand, earth,<br>vermiculite or diatomaceous earth and place in container for disposal according to<br>local regulations (see section 13). Use spark-proof tools and explosion-proof<br>equipment. |
| 6.4 Reference to other sections | : See Section 1 for emergency contact information.<br>See Section 8 for information on appropriate personal protective equipment.<br>See Section 13 for additional waste treatment information.  |

# **SECTION 7: Handling and storage**

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

#### 7.1 Precautions for safe handling

| Protective measures  | : Put on appropriate personal protective equipment (see Section 8). Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Do not enter storage areas and confined spaces unless adequately ventilated. Store and use away from heat, sparks, open flame or any other ignition source. Use explosion-proof electrical (ventilating, lighting and material handling) equipment. Use non-sparking tools. Take precautionary measures against electrostatic discharges. To avoid fire or explosion, dissipate static electricity during transfer by earthing and bonding containers and equipment before transferring material.         |
|--|---|
| Advice on general occupational hygiene                                 | : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.   |
| 7.2 Conditions for safe<br>storage, including any<br>incompatibilities | : Store between the following temperatures: 0 to 35°C (32 to 95°F). Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see section 10) and food and drink. Eliminate all ignition sources. Separate from oxidizing materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. |
| 7.3 Specific end use(s)  |   |

solutions

### **SECTION 8: Exposure controls/personal protection**

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

#### 8.1 Control parameters

**Occupational exposure limits** 

| SECTION 8: Exposure controls/personal protection |      |  |   |  |
|--|------|--|---|--|
| Product/ingredier                                | nt r | name   | Exposure limit values   |  |
| Propan-2-ol                                      |      |  | EH40/2005 WELs (United Kingdom (UK), 8/2007).<br>STEL: 1250 mg/m <sup>3</sup> 15 minute(s).<br>STEL: 500 ppm 15 minute(s).<br>TWA: 999 mg/m <sup>3</sup> 8 hour(s).<br>TWA: 400 ppm 8 hour(s).  |  |
| Recommended monitoring procedures                | :    | If this product contains ingredients with exposure limits, personal, workplace<br>atmosphere or biological monitoring may be required to determine the effectiveness<br>of the ventilation or other control measures and/or the necessity to use respiratory<br>protective equipment. Reference should be made to European Standard EN 689 for<br>methods for the assessment of exposure by inhalation to chemical agents and<br>national guidance documents for methods for the determination of hazardous<br>substances. |   |  |
| Derived effect levels<br>No DELs available.      |      |  |   |  |
| Predicted effect concentration                   | ons  | 6  |   |  |
| No PECs available.                               |      | -  |   |  |
| 3.2 Exposure controls                            |      |  |   |  |
| Appropriate engineering controls                 | :    | ventilation or ot<br>contaminants b<br>also need to ke   | dequate ventilation. Use process enclosures, local exhaust<br>ther engineering controls to keep worker exposure to airborne<br>below any recommended or statutory limits. The engineering control<br>tep gas, vapour or dust concentrations below any lower explosive<br>closion-proof ventilation equipment.             |  |
| Individual protection measu                      | res  |  |   |  |
| Hygiene measures                                 | :    | eating, smoking<br>Appropriate tec<br>Wash contamir  | prearms and face thoroughly after handling chemical products, befor<br>g and using the lavatory and at the end of the working period.<br>chniques should be used to remove potentially contaminated clothing<br>nated clothing before reusing. Ensure that eyewash stations and<br>are close to the workstation location. |  |
| Eye/face protection<br>(EN 166)                  | :    | No special reco  | ommendations.   |  |
| Skin protection                                  |      |  |   |  |
| Hand protection<br>(EN 374)                      | :    | No special reco  | ommendations.   |  |
| Body protection<br>(EN 14605)                    | :    |  | ctive equipment for the body should be selected based on the task<br>of and the risks involved and should be approved by a specialist<br>of this product.   |  |
| Other skin protection                            | :    | selected based   | otwear and any additional skin protection measures should be<br>on the task being performed and the risks involved and should be<br>specialist before handling this product.  |  |
| Respiratory protection (EN 143, 14387)           | :    | A respirator is r  | not needed under normal and intended conditions of product use.   |  |
| Environmental exposure controls                  | :    | they comply wit cases, fume sc   | n ventilation or work process equipment should be checked to ensur-<br>th the requirements of environmental protection legislation. In some<br>rubbers, filters or engineering modifications to the process<br>be necessary to reduce emissions to acceptable levels.   |  |

# **SECTION 9: Physical and chemical properties**

#### 9.1 Information on basic physical and chemical properties **Appearance** Physical state : Liquid. Colour : Green Odour : Fragrance-like **Odour threshold** : Not applicable and/or not determined for the mixture. : 10.1 to 10.6 [Conc. (% w/w): 100%] pН : Not applicable and/or not determined for the mixture. Melting point/freezing point Initial boiling point and boiling : Not applicable and/or not determined for the mixture. range : 69 °C (Closed cup) Flash point **Evaporation rate** : Not applicable and/or not determined for the mixture. Not applicable and/or not determined for the mixture. Flammability (solid, gas) 2 **Burning time** Not applicable and/or not determined for the mixture. 2 **Burning rate** : Not applicable and/or not determined for the mixture. Upper/lower flammability or : Not applicable and/or not determined for the mixture. explosive limits Vapour pressure : Not applicable and/or not determined for the mixture. Vapour density : Not applicable and/or not determined for the mixture. : 1.004 to 1.014 Relative density Solubility(ies) : Easily soluble in the following materials: cold water and hot water. Partition coefficient: n-: Not applicable and/or not determined for the mixture. octanol/water Auto-ignition temperature : Not applicable and/or not determined for the mixture. **Decomposition temperature** : Not applicable and/or not determined for the mixture. Viscosity Dynamic: 16 mPa·s 2 **Explosive properties** : Not applicable. **Oxidising properties** : None.

#### 9.2 Other information

No additional information.

### SECTION 10: Stability and reactivity

| 10.1 Reactivity                            | : | No specific test data related to reactivity available for this product or its ingredients.  |
|--|---|---|
| 10.2 Chemical stability                    | : | The product is stable.  |
| 10.3 Possibility of<br>hazardous reactions | : | Under normal conditions of storage and use, hazardous reactions will not occur.   |
| 10.4 Conditions to avoid                   | : | Avoid all possible sources of ignition (spark or flame). Do not pressurise, cut, weld, braze, solder, drill, grind or expose containers to heat or sources of ignition. |
| 10.5 Incompatible materials                | : | No specific data.   |
| 10.6 Hazardous<br>decomposition products   | : | Under normal conditions of storage and use, hazardous decomposition products should not be produced.  |

# **SECTION 11: Toxicological information**

### 11.1 Information on toxicological effects

#### Acute toxicity

| Product/ingredient name               | Result    | Species | Dose       | Exposure |
|---------------------------------------|-----------|---------|------------|----------|
| (Fatty Acid)<br>Alkylsulphosuccinates | LD50 Oral | Rat     | 1900 mg/kg | -        |
| Propan-2-ol                           | LD50 Oral | Rat     | 5000 mg/kg | -        |

**Conclusion/Summary** : Not determined for the mixture.

#### Irritation/Corrosion

| Product/ingredient name          | Result   | Species   | Score         | Exposure        | Observation |  |  |

# **SECTION 11: Toxicological information**

| General               | : No known significant effects or critical hazards. |
|-----------------------|---|
| Carcinogenicity       | : No known significant effects or critical hazards. |
| Mutagenicity          | : No known significant effects or critical hazards. |
| Teratogenicity        | : No known significant effects or critical hazards. |
| Developmental effects | : No known significant effects or critical hazards. |
| Fertility effects     | : No known significant effects or critical hazards. |
| Other information     | : Not determined for the mixture.                   |
|                       |   |

# **SECTION 12: Ecological information**

#### 12.1 Toxicity

| Product/ingredient name               | Result                            | Species | Exposure |
|---------------------------------------|-----------------------------------|---------|----------|
| (Fatty Acid)<br>Alkylsulphosuccinates | Acute LC50 <24 mg/L               | Fish    | 96 hours |
| Propan-2-ol                           | Acute LC50 >1400 mg/L             | Fish    | 96 hours |
| Conclusion/Summary                    | : Not determined for the mixture. |         |          |

#### 12.2 Persistence and degradability

| <b>Conclusion/Summary</b> | : The surfactants contained in the product are biodegradable according to the |
|---------------------------|---|
| -                         | requirements of the detergent regulation 648/2004/EC                          |

| 12.3 Bioaccumulative potentia<br>Conclusion/Summary |     | Not determined for the mixture. |
|---|-----|---------------------------------|
| 12.4 Mobility in soil                               |     |                                 |
| Soil/water partition coefficient (Koc)              | :   | Not determined for the mixture. |
| Mobility  | :   | Not determined for the mixture. |
| 12.5 Results of PBT and vPvB                        | l a | ssessment                       |
| PBT   | :   | Not applicable.                 |
| vPvB  | :   | Not applicable.                 |
|   |     |                                 |

**12.6 Other adverse effects** : No known significant effects or critical hazards.

# **SECTION 13: Disposal considerations**

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

#### 13.1 Waste treatment methods

| <u>Product</u><br>Methods of disposal | : The generation of waste should be avoided or minimised wherever possible. Empty containers or liners may retain some product residues. This material and its   |
|---------------------------------------|--|
|                                       | container must be disposed of in a safe way. Significant quantities of waste product<br>residues should not be disposed of via the foul sewer but processed in a suitable<br>effluent treatment plant. Dispose of surplus and non-recyclable products via a<br>licensed waste disposal contractor. Disposal of this product, solutions and any by-<br>products should at all times comply with the requirements of environmental<br>protection and waste disposal legislation and any regional local authority<br>requirements. Avoid dispersal of spilt material and runoff and contact with soil,<br>waterways, drains and sewers. |
| Hazardous waste                       | <ul> <li>Within the present knowledge of the supplier, this product is not regarded as<br/>hazardous waste, as defined by EU Directive 91/689/EEC.</li> </ul>  |
| <u>European waste catalog</u> u       | <u>ue (EWC)</u>  |

# **SECTION 13: Disposal considerations**

| Waste code          | Waste designation   |  |  |
|---------------------|---|--|--|
| 20 01 30            | detergents other than those mentioned in 20 01 29   |  |  |
| Packaging           | ·   |  |  |
| Methods of disposal | : The generation of waste should be avoided or minimised wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.                                  |  |  |
| Special precautions | : This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. |  |  |

14.7 Transport in bulk: Not applicable.according to Annex II ofMARPOL 73/78 and the IBCCode

# SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

EU Regulation (EC) No. 1907/2006 (REACH)

Annex XIV - List of substances subject to authorisation

Substances of very high concern

None of the components are listed.

Annex XVII - Restrictions : Not applicable. on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles

**Other EU regulations** 

# SECTION 15: Regulatory information

Ingredient declaration according to detergent regulation 648/2004/EC:

≥5 - <15% non-ionic surfactants

<5% anionic surfactants, soap

Contains Perfumes: (Limonene, Citronellol, Citral, Geraniol)

#### National regulations

The Chemicals (Hazard Information and Packaging for Supply) Regulations.

The Control of Substances Hazardous to Health Regulations.
