Do not allow detergent solutions to contaminate surface wate drains. In the event that concentrated product shoul need to be disposed of, run small amounts to fou waste, diluting with plenty of water. For large quantities, seek advice on disposal from the loca authorities. Delphis Eco products are packed in full recyclable containers. Empty containers should be rinsed thoroughly, the washings being run to fou waste. The containers may then be sent for recycling Dispose of all waste in a responsible manner. Be aware of the environment.
