ALCOHOL GEL HAND RUB With Moisturiser

USE

Alcoholic hand rub

DESCRIPTION

Quick acting & highly effective alcohol based hand sanitiser. Kills bacteria & viruses. Rapidly evaporates from hands without leaving residue or odour. Unperfumed, suitable for wherever food is handled, prepared or served also for use inbetween patient contact in non-surgical medcal care establishments.

FEATURES & BENEFITS

- For use after routine hand washing or wherever soap & water are not readily available
- Rapidly evaporates from hands without leaving residue or odour
- Kills bacteria. Passes EN1276 with a 30 second contact time, also passes EN1500 & EN13727
- Ideal in food handling & preparation areas
- Unperfumed, will not taint the skin
- Recommended for use between patient contact in non-surgical medical care establishments

HOW TO USE

After washing & drying hands, apply a small amount to palms & spread over hands & forearms, paying special attention to cuticles & creases in the skin. Rub in well until skin is dry. As the product evaporates, it is not necessary to dry hands. Will leave the skin feeling refreshed & sanitised. Avoid contact with clothes & fabric.
