

# Suma Bac-conc

# Highly concentrated detergent disinfectant

### **Description**

Suma Bac conc D10 conc is a highly concentrated detergent disinfectant for one step cleaning and disinfection of all surfaces in food premises.

## **Key properties**

**Suma Bac conc** D10 conc is a combination of a Quaternary Ammonium Compound, a sequestrant and a buffer system making this product very effective against a wide range of micro-organisms, in all water conditions. The formulation also contains surfactants to provide excellent cleaning power.

**Suma Bac conc** D10 conc dose is controlled through the JohnsonDiversey Divermite dispenser making the product very economical in use.

#### **Benefits**

- Reduces waste, needs less storage capacity and gives excellent economy in use due to highly concentrated formulation
- Suma Bac conc D10 conc can be used to clean and to sanitise in one step, when used as directed
- Cuts through grease and dried-on food soiling
- Effective against a wide spectrum of micro-organisms, helping to improve hygiene security
- Effective in all water conditions

#### **Use instructions**

**Suma Bac conc** D10 conc is supplied in flexible 1.5 L plastic pouches designed to fit into the JohnsonDiversey Divermite Dispenser.

## Spray cleaning and disinfection:

- 1. Fill up the bottle with water. Insert bottle in the Divermite dispenser and push once (10 ml / 750 ml)
- 2. Remove any excess soil from the surface
- 3. Spray onto surface to be cleaned
- 4. Leave for 5 minutes and wipe surface clean
- 5. Rinse food contact surfaces thoroughly with clean water and allow to air dry

For pre-cleaned surfaces, apply product and leave for at least 30 seconds. Rinse food contact surfaces with clean water and allow to dry.

A made up spray bottle of product will be active for up to seven days. Rinse and dry bottle before refilling.

#### General cleaning and disinfection:

- 1. Use at a concentration of 4 pushes (60 ml) in 6L of hand hot water
- 2. Remove excess soil from surface
- 3. Apply solution with cloth or brush
- 4. Leave for 5 minutes and wipe surface clean
- 5. Rinse food contact surfaces thoroughly with clean water and allow to air dry

For heavily soiled items, pre-clean surface using **Suma Bac conc** D10-conc.
